GLOSSARY	92

Figure 32: Active mobility teams

Results

Health

- | Training to learn how to use an AED, a skill most appreciated around family and friends
- | Active mobility teams who can be dispatched by QCR at a moment's notice
- | Climate control and over pressure in the Parking Hosts' lodge to limit car fumes in work area

Safety

- | Less cash in our parking facilities, we proactively encourage cashless payments
- | Conflict management training to learn how to deal with aggression
- | CCTV monitoring and footage is available

Co-creation

We aim to retain value through co-creation.

We work together with parking payment service providers (PPSPs) such as EasyPark and Yellowbrick who want to combine their on-street parking and payment solutions with off-street parking for their customers.

This partnership enables customers to:

- | park in our facilities with the PPSP card of their choice;
- | receive a convenient overview of all their parking transactions;
- | pay immediately or make a single payment at the end of the month.

In the Netherlands, Q-Park has a co-creation solution with the NS, the national railway operator. Q-Park manages the Park+Ride car parks at train stations and enables NS Business Card holders to use their public transport card for parking as well.

We co-create with municipalities and public and private landlords to provide underground bicycle parking, infrastructure solutions, green spaces as well as routes for pedestrians and cyclists above ground.

We also endeavour to create aesthetically pleasing interiors and exteriors to our structures either as an artistic statement or to blend in with the surroundings. In many of our inner-city projects, such as Deansgate North in Manchester and Handelsbeurs in Antwerp, we have retained the architectural heritage.

Results

From 2019 onwards we intend to start listing value retaining co-creation partnerships, for example on:

- | third party parking and payment enablers;
- | sustainable transport enablers;
- | public transport enablers;
- | public-private partnerships.

Expertise

We aim to retain value by sharing our expertise. We do this with the We Develop Quality (WDQ) campaign, the Annual Q-Park Thesis Award, Thought Leader events, and by participating in industry platforms such as:

- | Danish Parking Association
- | Norwegian Parking Association, and Parking Complaint Team
- | Board member at Vexpan, Stichting Maatschappelijke Projecten Maastricht
- | Member of Communication Partners
- | Member of GBN platform (grote bedrijven netwerk - MVO nederland)
- | CROW, (Dutch technology platform for transport, infrastructure and public space)
- | EPA (the European Parking Association)

We Develop Quality

We launched the WDQ campaign in 2018 to share our expertise of car park design and knowledge of the role of parking in making cities more liveable. In this campaign Q-Park ambassadors are encouraged to read and share the articles with their network.

 [Click here for the expert articles.](#)

The **We Develop Quality** goals are twofold, to:

- | Improve top-of-mind awareness of Q-Park's expertise, products and services among public and private landlords
- | Strengthen the organisation
